Governor Asa Hutchinson  
José R. Romero, MD, Secretary of Health

November 8, 2021

Dear COVID-19 Vaccination Providers,

ADH would like to take this opportunity to thank you again for your continued dedication to administering COVID-19 vaccinations to your patients and community members in Arkansas. Thanks to your hard work, we have made good progress in getting more and more people protected against COVID-19. We still have much work to do, especially with regard the new Pfizer-BioNTech COVID-19 vaccine for children 5 through 11 years of age. In support of your work, Arkansas Department of Health would like to provide you with the Pfizer Medical Affairs training links on COVID-19 vaccine that will be available over the next few weeks.

The Pfizer Vaccines US Medical Affairs continues to host medical updates and immunization site training for all providers with a focus on Emergency Use Authorization of the Pfizer-BioNTech COVID-19 vaccine for children 5 through 11 years of age and sessions for all providers on storage, handling, and administration for current formulations of Pfizer COVID-19 vaccine. The training sessions will reflect updated vaccine information and changes as they occur and pending Food and Drug Administration (FDA) authorization and Centers for Disease Control (CDC) recommendations. The updates will be identified at the start of each session and further explained during each presentation, which Pfizer Vaccines US Medical Affairs continues to host daily.

In addition to the Pfizer training, I strongly encourage you to view the CDC trainings at the following links for the Pfizer-BioNTech pediatric formulation. [COVID-19 Vaccination for Children 5-11 Years Old | CDC](#), [Pfizer-Pediatric-Reference-Planning.pdf \(cdc.gov\)](#) and [COVID-19 Vaccine Training Modules \(cdc.gov\)](#).

Before administering the vaccine, please see full [Prescribing Information \(16+ years of age\)](#) and [EUA Fact Sheets for Vaccination Providers: 12+ years of age \(DILUTE BEFORE USE/Purple cap\)](#), and [5 through 11 years of age \(DILUTE PRIOR TO USE/Orange cap\)](#).

To join the Pfizer Medical Affairs trainings, please click on attendee links listed below for the date and time and the event password.
